Coudon Free Press.

AGRICULTURAL.

For Loudon Free Press. Messrs Editors: I submit the following for publication, if you think it worthy a place in the columns of your paper. That season of the year has already arrived when if the farmer would gather a prolific crop, in the Autumnal months, he should be following his Agricultural pursuits with avidity, and since so much is depending on his success, every inducement should be held out for his encouragement.

The present difficulties in the East, threaten a general European War. The consequence of any. which will be a very great shipment of breadstuffs from our ports at advanced prices. But this, the inevitable results of devastation and ruin which ever follow in the wake of war does not afford so pleasing an encouragement to the intelligent and benevolent farmer, as the follow ingstatement of the nett yield of two fields, cuiti. tivated by AQUILLA EVERETT, and V. H. THOMPSON in the Hackberry, contiguous to Loudon, Roane County.

The one cultivated by the former, on John W. Rhea's farm adjoining Wm. H. Johnson's landcomprising ten acres, vielded 55 bushels per acre, amounting to 550 bushels. This at 40 cents per bushel gives...... \$220,00

cents her pusitor Brica		
Cost of cultivation:		
Breaking up ground	\$16:00	
Checking and planting		
Replanting	2:00	
Thining	2:50	
4 Ploughings, \$8 each	32:00	
Gathering Crop	20:00	
Whole cost	\$81:00	
Nett profit		\$1

The one cultivated by the latter on Jos. Anderson's farm, adjoining J. W. Rhea's, comprising 16 acres, yielded 45 bushels per acre; giving 720 bushels corn; at 40 cents per bushel gives \$228:00

The entire cost of cultivation (being upland...... 129:00

Showing a nett profit of \$159:00 I have no doubt but there are many other fields in the neighborhood, that with ordinary cultivation, would give equal, or even greater [feb-9y4] yields than those which come more directly under my observation. Hackberry, Roane Co. Feb. 13th, 1854.

For Loudon Free Press.

Men loose much by not taking care of small things; for instance, the Farmer by taking care of his Ashes, even after they have been leached (or the ley drained out of them) may realize considerable profit from them. A certain wriper bushel, to the farmer. There are various ways to use them, profitably; some of which, has come under my observation. I have tried them myself, on clover and know them to be valuable; take 3 gallons of plaster, and mix with some 3 bushels of leached ashes to one plaster. I know two farmers, who sow ashes upon their wheat; one of them lives in Roane county, the other in Claibourne. They have been swing ashes on their wheat for a numher of years, and have never failed yet, in raising good wheat, when they have used ashes .-You may sow on your ground, when you sow your wheat, or any time from then until spring. One of the above gentlemen, showed me a clover field, with a great many old trees standing on it, he said he intended to break up the field, and then set fire to the standing trees, and let them burn, and let the wind scatter the ashes. forthwith and sow some ashes on some patch of wheat and then next fall try the experiment

FARMERS' FRIEND. From Country Gentleman. Notes on Farming .- Messrs. Editors -- Having been under your tuition for fourteen years. I wish to assure you of the gratifying results which have followed the reading of the Cultivator. I came on to my farm in 1839, which was one of the best wheat seasons we have had from that time to this; yet my wheat crop that year of six acres, averaged but 13 bushels per acre. In 1852, I cut 12 acres, which averaged 19 bushels; and in 1853, 22 acres, which produced 264 bushels by measure and 278 by weight of 60 fbs. or nearly 22 bushels per acre If I had sowed all Mediterranean wheat, the average would have been three or four bushels more; but I had three acres of what is here called "Riley wheat," which was badly cut with the fly; and 21 acres of a wheat that I would and examine for yourselves, before purchasing elsebe glad to know the name of. It grew six feet by wholesale and retail, consisting of Loaf, Crushed, high, with strong bright stem, broad leaf, light | Powered and Brown Sugars. Coffee, Brandies, Wines, green, head broad and flat like barley, with long beard and large grains. It was eight days later than the Mediterranean, but entirely escaped the fly. This 22 was not half thick enough on account of the seed having been badly bro TO THE LADIES AND GENTLEMEN OF ken by the threshing machine. Part of this crop was grown on land which had been cleared forty years and was considered worn-out when it came into my possession. I believe it was the best crop grown in this township last | Castings, &c., &c. Also, a lot of good stoves from | Garment Catting; now by the nid of year on old land. John Conway had 30 acres

bushels per acre, white wheat. For wheat, I generally plow twice; once in June and then in September, just before sowing. One advantage of plowing in June, is that the Apply to the Editor of the Free Press. or to ground is then soft, and one pair of horses can plow 6 inches deep with ease, whereas in September, if the summer has been dry, it is hard 4000 lico;" received and for sale by work to plow three inches deep.

In a late number of the Cultivator, you instanced the effects of digging clay from pits and spreading it over the surface. A neighbor of mine told me he practiced this in Ireland, with great advantage to the oat crop. You also stated that a man had said that he wished some one would haul three inches off the top of his land, as he knew that he had a better soil below. This is the opinion I had of my land, and I had expected by plowing six inches deep, to turn down three inches of worn-out top, and bring up three inches of a better soil. Then harrowing and plowing again, and harrowing A mington, Delaware. again after sowing, will mix the two, and give an improved soil and greater depth. In place Dat

of hauling clay over the surface, I tell my boys, when plowing for wheat, to try to turn up some of the red clay sub-soil.

I want to make a comparison between my next neighbor, who I could never get to take superior to mine. He had the past season sevoldest fields, which produced 50 bushels per acre; his not half of it. My corn got 246 wagon loads of manure, His wheat got some, but his corn very little. I feed all my hay and corn; he sells nearly all of his. I cut up all my corn, JOHN J. CRAIG.

North Madison, Ind.

DR. W. L. WHITE, having returned from the East, now offers for sale, a new and fresh supply of drugs, Medicines, and dye stuffs; and all articles usually kept in drug stores; which will be sold as low as they can be purchased in East Ten-

Country Merchants, and Physicians are requested o favor him with a call, before purchasing elsewhere. He will attend to all calls that may be made on him for his professional services from the city and [no 10-tf vicinity as heretofore.

JOSEPH ANDERSON & SON, AVING made arrangements for extending their usiness by connecting with their former trade the Hackberry on the Tennessee river, a new branch at the mouth of Hickory creek, near Clinch river in Knox county, about 12 miles north of Loudon, are now receiving and offering for sale at both stands large and well selected supplies of Fall and Winter Goods together with Groceries of every description. Their assortment of Dry Goods

is complete including: Prints, Casimeres, Ginghams, Delanes, Lawns, Muslins Embroidered, Jackonets, Shawls, Fringes for Dress, Buttons, Combs, Handkerchiefs, Neck Ties: And in short an extensive assortment of every article of Winter Ware both for Ladies and Gents ineluding,

MEXICAN MUSTANG LINIMENT. Having used the Mustang Liniment in my family

for several severe cases of hard lumps and swellings I cheerfully give my certificate to its excellent effeets. My daughter had a hard lump, the size of a hen's egg, upon her wrist for a year. I told her to rub it with the liniment and a few applications enthe Cultivator. He always considered his farm | tirely removed it. I have also used the liniment for scrofulous tumors, or swellings in the throat of long standing, on two of my servants, and it removed en acres of wheat, aud all it produced was 73 them both in a short time. I consider them all rebushels. I had 14 acres of corn on one of the markable cures, and recommend the Mustang Liniment as the best- article I ever used.

J. T. HOPKINS, Proprietor Hopkins' Hotel.

Liberty, Va., June 30th, 1853. Monganton, N. C., June 30th, 1853. Dr. A. G. Brace & Co .- I feel it my duty to those of my fellow beings who are afflicted as I have been, he sells nearly all of his. I cut up all my corn, to add my testimony to the wonderful effects of your and feed fodder in the yard; he seldom cuts up Mustang Liniment. I was severely attacked in December last with Rheumatism in its worst form, suffering night and day with excruciating pain for six months, being for the whole time unable to walk or even to step. My right leg was so contracted and drawn up that I could not put it to the ground, and my left arm was badly contracted. During the whole time I was attended by two of the most skilful physicians in the place, but they were unable to afford relief, and finally gave me up-pronounced me incurable, and said I must die.

At this critical moment I commenced using the Mexican Muntang Liniment, and after using two small bottles I began to find relief from my sufferings; and after using seven bottles I was well as ever, and am now stout as ever I was before. GEORGE GOOD. Monganton, June 30th 1853. I certffy that I am acquainted with George Good -that he was afflicted with Rheumatism as above

stated, and was cured by the use of Mexican Mus-JAMES C. SMYTH. tang Liniment. Merchant and Hotel Keeper. PRICES.-The Liniment is put up in three sizes, and retails for 25 ets., 50 ets. and \$1 per bottle .-The 50 ct. size contains three times as much as the 25 ct. size, and the \$1 size three times as much is the 50 ct. size; the large sizes being greatly cheaper.

A. G. BRAGG & CO., Proprietors.

LOUDON,

On the Tennessee River, 30 miles below Knoxville and 75 above Chattanooga, (by land) the present terminus of the East Tennessee & Georgia Rail Road, and the point at which, most likely the Charleston Rabun Gap & Tennessee River Rail Road will unite with it, and cross the River to Knoxille, and thence to Northern cities, and elsewhere. Lexington and Cincinnati, offers extraordi nary inducements to Capitalists, Merchants Manufacturers, and Mechanics.

FROM ITS POSITION IT WILL COMMAND in a great measure the trade of Upper East Tennessee, and portions of Virginia, Kentucky and North Carolina; and as the centre of a fertile and prosperous section of country, in the very heart of the United States, and almost on an air-line between the great cities of the North and East, and New Orleans, it will retain a heavy Trade, and be on the National throughfare after the Rail Road (now builbirg) is completed to and through Virginia and, as is most likely, will be united by iren bands with Charleston on the South, and with Lexington and Cincinnati on the North, and as now with Augusta and Savanuah, so at no distant day with Mobile, New Orleans, Memphis and Nashville, A very extensive and rich region of country above drained by the Clinch, the Holston, the French Broad, the Little Tennessee, and the Tellico Rivers. all of which are navigable for Steam-Boats, must always make this point its market; and it must also command a large portion of the Flat-Boat Trade, which will bring to it vast quantities of Lumber, Iron, Coal, Salt, Plaster, Marble, Slate, Grain, and Provisions. All of these combine to make it a favorable location for manufacturing purposes, and for the purchase, sale, and forwarding of the rich pronatural avenues of Trade, Travel, and Businessthe just anticipation that they will contre here-the vast and varied products of the soil, and the energy and industry of the people of the surrounding coun try, will afford the most extensive resources for the poses of successful commerce, and justly entitle LOUDON to be looked to now as one of the most mising locations for a large and flourishing town, and as healthful as fresh mountain air, and pure water, gushing out in bold springs, can make itbeing in full view, from an eminence in its midst of the Allegancy Mountains in one direction, and the Cumberland in another. These advantages, together with that of easy access, will make it a most agreeable and desirable place of resort for Southern people during the Summer months, and will also ine the blessing of Schools and Churches, which. with a wise forceast, are already being provided for.

It remains but to enumerate some of the trades and kinds of business that might be most successfully prosecuted here-such as Manufacturing generally Cotton, Woolen and Negro Cloths; of all sorts of Agricultural Implements; Boat Building; Boot and Shoe Making; Manufacturers of Nails, Screws, Seythes, Spikes, Bolts, Axes, Cutlery and Copper Ware-Grain Fans, Threshing Machines and Corn Shellers; Steam, Grist, Flouring and Saw Mills-Iron Founders; Steam Engine and Boiler Maker;, both for the River and Rail Road; Stove-makers Grain and Flour Merchants-dealers in Hides, Leather and Oil, Hatters, Tanners and Tailors-Plasterers and Painters; Brick and Stone Masons-Bridge and House Builders; Millwrights; dealers in Lime and other building material; Machinists; Plumbers; Tanners; Manufacturers of all kinds of Paints; Planing Mills; Marble Workers and Stone Cutters; Saddlers; Window Sash and Blind Makers; dealers in Staple and Dry Goods, Salt and Iron, and many other things too numerous to mention. Furthen information obtained, or lots sold on application to

J. H. JOHNSTON, Agent. N. B. Great inducements will be held out for the establishment here of a Rolling Mill and Foundry, a Cotton or Woolen Factory, a Tannery with the boot, shoe and saddlery business connected with it, also for a steam Flouring Mill. Suitable lots for the Iron, Cotton or Woolen Manufactory will be given, while for all other manufacturing purposes they will be sold on extremely favorable terms J. H. J. Loudon, Roane county. Tenn., Jan. 22, '52- -y

SPECIAL NOTICE TO THE AFFLICTED TICHELL'S INDIAN RHEUMATIC EXTRACT AND M BLOOD PURIFIER; a certain cure for either Inflamatory, Chronic or Acute Rheumatism, Neuralgia and Gout. This valuable remedy stands without rival in the history of discoveries in this or any other country, in curing those painful and paralysing diseases in their various forms. The vast number who have been cured by the use of this Extract and Blood Purifier, during their discovery, demonstrates this fact. Not only recent acute, chronic, or inflamatory cases, but the old chronic cases of ten, twenty, and even forty years standing, when they had not only tried every other internal and external remedy of which they could hear; but at great expense had visited the various watering places without obtaining relief-some who were reduced to a mere skeleton their flesh without and limbs paralysed:-these have been permanently cured, are now enjoying excellent health, are able to follow their former avocations with their usua, agility -from the use of these medicines. These facts are fully substaintiated by published testimony that cannot be gainsayed; but can be youched for by thousands. Also, Mitchell's Indian Diarrhaa Cordial and Cough Drops, stand unrivaled is, euring pulmonary diseases-any affection of the lungn speedily stopped, whether chornic or acute long or

short standing. To be had at the Drug Store of Dr. W. R. Hurley, Loudon, TENN. THE subscriber also has an Infirmary in the city of Nashville, on the corner of Vine and Demumbrane streets, for the reception and accommodation of invalids wishing to come under his immediate and personal care. He will, moreover, cure the following diseases: Dyspepsia, Ulcers, Colds, Coughs, Cancers, Piles, &c, can have medicine and direction forwarded to them, in any way they may direct. J. MITCHELL, Indian Botanie Doctor; Office Market street, 3 doors from the Public square, sign of the Indian, Nashville, Tennessee. feb19, 1853-14oy

W. L. WHITE. Medical purposes at HURLEY'S DRUG STORE sept. 30 1853. (46-4m)

Attention Merchants and Farmers!

THE steamer Hiwassee being now in complete running order, will make regular trips from oudon to Knoxville, Stranberry Plains and Dandridge, (and as much farther up the Holston River as the low stage of water will admit,) during the ensuing Fall and Winter. The Hiwassee is a very light draught Boat with more power according to tonage than any boat on the river; consequently can run when other boats are compelled to lay up. Merchants living in Upper East Tennesce can now avoid the tedious delays of Goods on this route heretofore, by consigning their Goods to the care of 'Hiwassee Boat,' Loudon, Tenn. All Produce brought out at the very lowest rates thatcan possibly be

afforded. HIWASSEE STEAM BOAT CO. Persons that may now have Goods on the way can have them forwarded by this Boat by sending orders to that effect to the Hiwassee Boat. H. S. B: CO.
